

Coronavirus Update #3

Original Message Sent 3/13/20

Effective immediately we will be checking all patients in on the front patio of the building. Everyone will be screened to determine which way they will be directed or whether they will be held outside until specified contagious treatment rooms are available and cleaned.

Also effective immediately we will be suspending/postponing all **non-essential** wellness visits, this will include most physicals, diagnostics and labs. Each provider will be reviewing their schedules and the front desk staff will be contacting you to either reschedule at a later time or to have you continue to keep your appointment based on your providers direction.

Fire Department physicals are not being cancelled until we get confirmation from the Fire Department that they are agreeable.

Expect to begin to receive frequent updates to operations here at the Wellness Center. All of these precautions are being taken so that we can effectively treat the sick while preventing healthy patients from getting sick to the best of our ability. We will be constantly re-evaluating the situation and adapting as conditions warrant.

Sorry for any inconvenience this may cause you and your families.
